e-mail: info@njmasonic.org

Through our mission of love,
the Masonic Home of New Jersey seeks to provide quality, individualized care and services that meet our residents physical, social and spiritual needs in an environment that enables them to live a rich and full life.

Founded by the Masonic Fraternity, which is a non-profit organization, managed by the Masonic Charity Foundation of New Jersey, our residence is open to the public and welcomes all.

We Prove We Care

We care about tradition

The Masonic Home of New Jersey has a tradition of caring that dates back more than a century. Today we are one of the largest long-term care providers in New Jersey, yet we take pride in our friendliness and attention to individuals needs. Residents come from many different areas, religions and backgrounds, creating an interesting community where friendships flourish.

We care about your quality of life

Located on 450 immaculately groomed acres in rural Burlington Township, the Masonic Home of New Jersey embodies our enduring commitment to providing quality care for our residents. Residents also have access to a wide range of amenities, from our ice cream parlors and beauty shops to our wood-working shops and ceramic and craft rooms.

We care about your satisfaction

Meals, served three times daily in our attractive Dining Room and Bistros, are savory and nutritious. In addition, a homey Private Dining Room is available for use by residents and their families. Whether you're planning a five course meal or ice cream and cake, we're happy to help you celebrate.

We care about your health

Residents receive the expert attention of our full-time medical team. You can also see specialists in our doctor's office. If you need off-site medical care, we can help to schedule your appointments and make sure you have transportation. The rehabilitation department provides physical, occupational and speech therapy programs in our large, well-equipped Fitness Center.

We care about continuity

When you live in a community where you feel at home, you don't want to leave. As a resident of the Masonic Home of New Jersey, you don't have to. We have the facilities and staff to provide whatever level of care you need.

Residential Living ~ Residents live independently in one of our private apartments. Furnishings can be provided or you may bring your own. We will even offer interior design advice that can help you make your apartment reflect your unique style.

Assisted Living ~ To enable residents to live to their full potential and live as independently as possible, our experienced and caring staff can provide assistance with activities such as bathing, dressing, transportation or taking medications as needed.

Skilled Nursing ~ We are known for our nursing services. Residents of our Medical Center receive round-the-clock care from a staff of more than 300 licensed professional nurses and certified nursing assistants under guidance of our Medical Director.

Short Term Rehab ~ We offer a unique combination of exceptional nursing and physical/occupational therapy services with spacious, private rooms.

Respite Care ~ Our Respite Care program offers compassionate and personalized care from experienced nurses, LPNs and CNAs in the comfort and security of their own private room.

Alzheimer's Unit ~ For residents with dementia, Alzheimer's disease and other forms of memory loss, our 34-bed Special Care Unit provides holistic care in the least restrictive environment possible, replacing physical and chemical restraints with support, respect and dignity.

Hospice Care ~ For residents who have a terminal illness, we can provide medical and spiritual support through our licensed hospice program. Masonic Hospice Services is available under the umbrella of the Masonic Charity Foundation of New Jersey.
