Re: COVID-19 Vaccines

Dear Residents and Families,

We have received tentative dates of January 6th and 7th from CVS for our vaccination clinics. These dates still need to be confirmed by CVS.

While we are waiting for confirmation, we need our POAs and Legal Guardians to complete the COVID 19 Vaccine Responsible Party Form. As Dr. Guda is our Medical Director for the campus, we have pre-filled the form with his information and our Masonic Village address.

We request that you complete the resident's last name, first name, date of birth, gender and social security or driver's license number on this form. At the bottom of the form please complete your name, relationship, and date. Sign the form and complete your phone number. Please return to us via email, fax, or drop off at the Ambulance Entrance.

Residents that can sign their own consent will receive the consent form from their nursing team starting Monday.

If your (or your loved one's) insurance is changing for 2021, we also need a copy of the new insurance card as we need to provide this information to CVS at the time of the vaccine administration.

Again, the NJDOH has indicated that Independent Living residents will NOT be included in the first wave of vaccinations. As we get more information when vaccinations will occur for Independent Living residents we will let you know.

Thank you for your cooperation as we move forward with this process.

Happy Holidays!
